

EOS35

Induction tie rod heater with integrated liquid cooling

DIMENSIONS:

depth 1000mm

width 830mm

height 1000mm

WEIGHT:

205kg

MAIN TECHNICAL CHARACTERISTICS:

- Input voltage: 380 – 480 VAC three-phase 50/60Hz
- Frequency: \div 35 KHz
- Power: 30KVA
- Tie rod diameters: from 9mm to over 32mm
- Operating temperature: $-30^{\circ}/ +45^{\circ}$
- Storage temperature: $-40^{\circ}/+60^{\circ}$
- Cooling: integrated liquid
